

DOUGLAS HOFFMAN IS SVS 0613'S NEW AND 12TH FELLOW

ASQ headquarters has announced that Douglas Hoffman, Software Quality Methods, LLC, has been named an ASQ Fellow. The ASQ citation reads in part: For outstanding contributions to the software quality profession; for recognized accomplishments in the creation of methodologies for software quality improvements; for technical contributions in software test engineering; and for his service to the ASQ Software Division and the Santa Clara Valley Section.

The section executive committee wishes to add our congratulations to Doug, our section's 12th and newest Fellow. Doug has over thirty years experience as a consultant, manager, and engineer in the computer and software industries. That experience includes: twenty years experience in evaluating, creating, and turning around software quality departments in medium and small start up companies; experience with corporate, quality assurance, development, manufacturing, and support functions and procedures; Management Consultant, Course Developer, Instructor, Author, and Project Manager for SQM, LLC; Adjunct Instructor for the University of San Francisco; Instructor for UCSC-Extension, ASQ-CSQE, ISO 9000 Auditor; Past Chair of ASQ's Santa Clara Valley Section (0613); Past Chair of the Santa Clara Valley Software Quality Association (SSQA), a task group of the ASQ; Program Chair for the Third International Conference on Software Quality (ASQC Software Division); US Program Chair for the First World Congress on Software Quality (ASQC Software Division); Conference Chair for the Third SSQA Software Quality Conference; Speaker at numerous conferences.

To contact Doug: doug.hoffman@acm.org.
If you are interested in becoming our next fellow, contact Navin Dedhia: Navindehia@hotmail.com
